

ABSTRACT OF THE DISCLOSURE

A method and apparatus for tracking play of a game is disclosed. The method comprises the steps of receiving a first set of game outcomes from play of a game associated with a first enterprise, storing the first set of game data in a database, receiving a second set of game outcomes from play of a second game associated with a second enterprise independent from the first enterprise, and storing the second set of game outcomes in the database. The apparatus comprises hardware and software modules and other means for performing the above operations.
